

NEW TOPICS! NEW LESSONS! NEW ACTIVITIES!

Summer Workshop

June 23, 2004 • Columbia, SC

Energy 2 Learn is a comprehensive workshop for K-12 teachers. The sixth annual workshop is limited to 200 teachers. There is no charge to register and the registration deadline is May 14. This year's workshop will include the following:

- * Introduction of the updated and revised CD-ROM of "Action for a cleaner tomorrow: A South Carolina Environmental Curriculum Supplement" featuring:
 - ☉ new correlations to the S.C. math, language arts and social studies standards;
 - ☉ new, revised and in-depth air, water, recycling and energy lessons;
 - ☉ new videos and Web links; and
 - ☉ additional background information.
- * Introduction of the new "Energy 2 Learn: The Classroom Presentation" that features comprehensive and South Carolina-specific energy education materials;
- * Recognition of 2003 Energy Educator of the Year;
- * Information about Earth Camp, an exciting educational and fun event where your students can learn more about the environment; and
- * Classroom materials, promotional items made from recycled content materials and opportunities to win many prizes.
